#### TILTA ECOSYSREM FOR DJI RONIN

Custom-made for stabilized camera movenment needs.

#### PRO GEAR WITHIN REACH

TILTA Technology was established in 2010, dedicated to providing high-quality photography and film equipment.

From SLR cages to professional camera accessories, we continuously refine and develop our products, graduallyevolving from a manufacturer to a comprehensive solutions provider. We have achieved outstanding results inwireless lens control, camera cages, gimbal support systems, shock-absorbing car mounts, and other fields.

After settino un our own factory in 2011. we made unremiina efforts to break into the Holvwood market with ourelectronic control solutions, which finally succeeded in 2016. In that same vear, we also established our NorthAmerican branch, n April 2017. we opened our show-room in I os Anaeles and obtained oficial certification as a REmanufacturer as well.

As an associate member of the American Society of Cinematographers, our collaboration with many professionaphotocraphers enables us to continually improve our products based on their experience and suagestions, inspiringusers' imagination and bringing unlimited creativity and possibilities.

The Tilta Float sstem has the same flexibility and mobility as expensive traditional Steadicam systems, whichpreviously only appeared in high-budget set.

The revolutionary release of the -vdra Arm Mini provides every creator with a consumer-arade car mount shootincsolution that is easy to use.

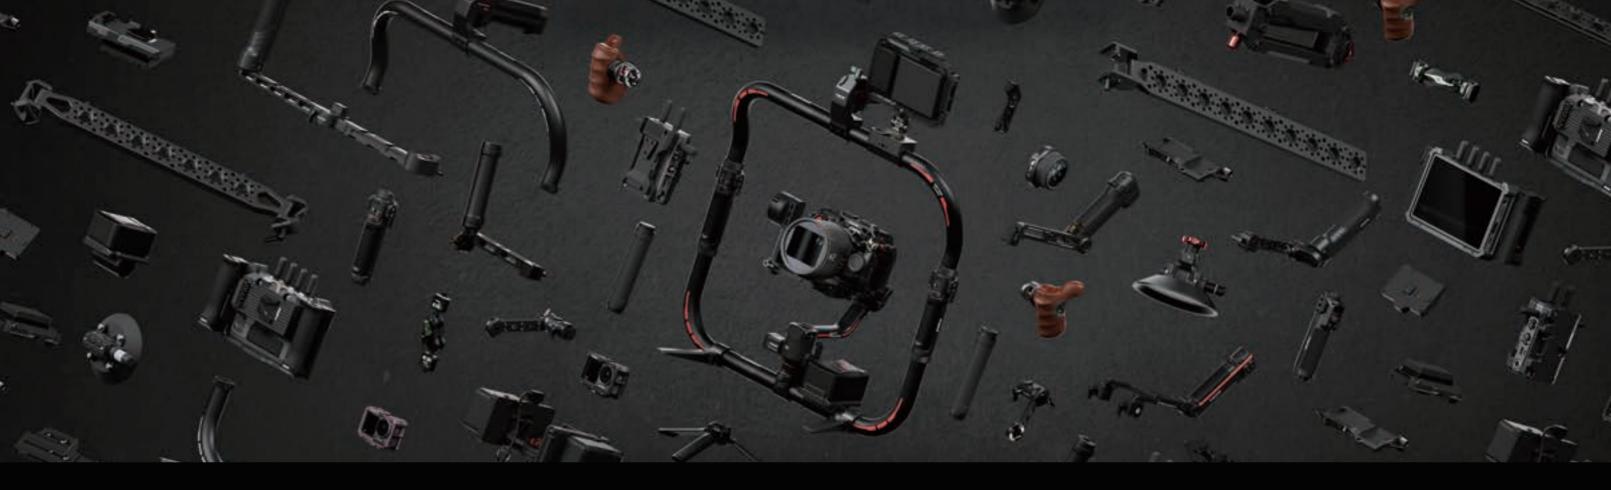

In the future. TIL TA will continue to provide industry-leading products and services, creating more value for theimaging industry and exploring the future of the global film industry with millions of creators.
