Cautions & Warnings

Before using this product, please strictly comply with the following instructions.

- Keep the device away from sharp objects to avoid scratches or surface damage.
- Avoid contact with water and chemicals (such as perfume or cleaning agents). Wipe dry immediately if exposed.
- Store in a dry environment with humidity below 40% RH.
- In high-temperature environments, monitor the device to avoid overheating during extended use.
- Do not expose the device or its accessories to strong impact or vibration to prevent damage or malfunction.
- Do not charge the device near flammable materials (such as carpets or wooden surfaces). Always supervise charging to ensure safety.

Lite Control Handle (Built-in Battery)

- Some kits include a Lite Control handle with a built-in 3.7V 2.59Wh 700mAh lithium battery.
- Charge only between 32°F and 113°F (0°C to 45°C). Charging outside this range may cause reduced performance, swelling, leakage, or overheating.
- Operating temperature: 14°F to 140°F (–10°C to 60°C). High temperatures may lead to swelling, fire, or explosion. In cold conditions, fully charge the battery at room temperature before use to extend service life.
- Do not store the battery above 140°F (60°C). Recommended storage temperature: 72°F to 82°F (22°C to 28°C).

Battery Safety

【Warnings】

- The lightweight control handle contains a non-removable built-in battery. Do not attempt to replace the battery yourself, as this may damage the battery or device.
- Do not expose the battery to high temperatures or place it near heat sources such as direct sunlight, heaters, microwaves, ovens, or water heaters. Overheating may cause explosion.
- Do not disassemble, modify, insert foreign objects into, or immerse the battery in water or other liquids, as this may cause leakage, overheating, fire, or explosion.
- The battery electrolyte is highly corrosive. If it comes into contact with skin or eyes, rinse immediately with clean water for at least 15 minutes and seek medical attention.
- Do not throw the battery into fire, as this may cause fire or explosion.

- Do not drop, crush, or puncture the battery. Avoid subjecting the battery to excessive external pressure, which may cause an internal short-circuit and overheating.
- Do not use damaged batteries.
- Do not store the battery in a fully discharged state for extended periods, as this may cause deep discharge and irreversible cell damage.
